PROFILE

I am a committed and driven software developer with a strong focus on mobile application development using Flutter. With hands-on experience in Flutter, Dart, React.js, Laravel, SQL, HTML, CSS, and Tailwind CSS, I can contribute effectively to a wide range of projects and tackle challenges confidently. My passion for building efficient, scalable solutions, combined with a continuous desire to learn and grow, makes me a valuable asset to any development team.

KEY COMPETENCIES

Programmer	Dart & Flutter	BLoC
Ability to learn new technologies quickly	Clean Architecture	Laravel
Building scalable and efficient applications	MySQL	React Js

PROFFESIONAL EXPERINCE

Software Developer – Kurdistan Academy

2024 – Present

- Developed and maintained the Kurdistan Academy mobile application using Flutter.
- Implemented scalable architecture using Clean Architecture and BLoC state management.
- Worked on backend integration, API handling, authentication, and application performance optimization.
- Maintained and updated both the mobile application and backend systems over a 2-year period.
- Collaborated on adding new features, fixing bugs, and improving user experience.
